June 15, 2021

Dear First Grade Parents,

Under the California Child Health and Disability Prevention Law (CHDP Law), all children entering First Grade must have received a health screening examination within the past 18 months.

A health certificate (**attached**) must be signed by the doctor and given to the school office.

If you chose not to have a health examination, please sign the waiver on the **BACK SIDE of the attached sheet.**

We will not allow your child to start school without the **health form or waiver** form on file in the school office.

Additionally, the following is the list of immunizations required by the State of California for your first grade child:

Polio	4 doses
Dtp/DtaP/DT/Td	5 doses
MMR	2 doses
Hepatitis B	3 doses
Varicella (Chicken Pox)	2 dose or record from the Doctor of your child having had the virus.

Please feel free to contact me at the school office at (818) 763-2892 with any questions.

Thank you.  
Mary Sloke

School Secretary

*Train a child in the way he should go, and when he is old he will not depart from it. (Proverbs 22:6)*
